C. J. KINNA.
Registry Agent Election District No. 7, Teton county, Montana.

The Ceded Strip.

Reports from the ceded strip are to the effect that the Michigan & Montana Copper company is working a crew of 15 men. At present the work is being done in a shaft which is now down 90 feet and will be continued until a depth of 156 feet is reached. At this depth it is expected the bottom of the shaft will be at water level. Up to the present time there has been no pumping necessary, but more and more water is coming in with depth.

This shaft is being sunk at a point 400 feet from the mouth of the lower tunnel, which is 600 feet long. For the first 50 feet the shaft is 4x8 feet, but is now 4x6 feet. It is following the foot wall of the ledge. In addition to the 600 foot tunnel there is a tunnel further up the hill which is 400 feet long, both of them being on the vein. With crosscuts and other workings there are about 1,400 feet of developments on the property.

The ledge where it has been crosscut in the tunnels is 35 feet wide and will average from 3 to 5 per cent in copper, with strata here and there throughout the ore body which go much higher. There are no other values in the ore.

This company owns a group of 11 quartz claims and several placer locations and water rights. On all of these claims the assessment work is being done. The property is known as the Cracker group. This property is located about 50 miles north of Blackfoot station, and on the St. Mary's river in the Swift Current mining district.

The company was originally capitalized for $8,000, but some time ago the capital stock was increased to $300,000, and the stock was made assessable. F. B. Goettler of Colville, Wash., is president; R. G. Strickland, Kalispell, vice president; Dr. A. D. Mcdougal, secretary and treasurer.

The company has plenty of money on hands to carry an extensive developments and after the level desired in the shaft has been reached it is the intention of the management to crosscut the ledge at the lower level and make other openings for the purpose of opening up the ore body.—Great Falls Tribune.

Drug store Humor.

A Philadelphia druggist has made the following collection of amusing missives that have been sent to him from time to time:

"I have a cute pain in my baby's stummick. Please give bearer something to cure it.

"My little girl has eat up a lot of buttons. Please send a nemetic by the enclosed boy."

"Dear doctor a dog bit my child on the leg please send some cork plaster and cutter eyes."

"Pleas to send by bearer one postal card. Also kindly give bearer, my son, some licorice root."

"Deer doctor wot is good for tirefoy fever send some quick I got it."

"Let my Johny have a glas of sody watter. I wud come myself but I am washing. P. S. the 2 cents is for the sody watter."

"If you can fill the enclosed prescription for 25 cents do so. If not return by bearer."

Falling From a Great Height.

It will be remembered that Mr. Whymper, who had a severe succession of falls once in the Alps, without losing his conciousness, declares emphatically that as he bounded from one rock to the other he felt absolutely no pain. The same thing happens on the battlefield. The entrance of the bullet into the body is not felt, and it is not till he feels the blood flowing or a limb paralyzed that the soldier knows he is wounded.

Persons who have had several limbs broken by a fall do not know which limb is broken till they try to rise. At the moment of a fall the whole intellectual activity is increased to an extraordinary degree. There is not a trace of anxiety. One considers quickly what will happen. This is by no means the consequence of "presence of mind." It is rather the product of absolute necessity. A solemn composure takes posession of the victim. Death by fall is a beautiful one. Great thoughts fill the victim's soul. They fall painlessly into the great blue sky.

Desperate Convicts.

Chester, Ills., Oct. 5.—Rather than perform heavy work assigned to them, John Reagdon and C. Rosee, two convicts in the southern Illinois penitentiary at this place, with a rusty hatchet, cut off three fingers from the right hand of each, thereby incapacitating themselves for further work. Both men claim to be in poor health. After they were discovered with their mutilated, bleeding hands, they were sent to the prison surgeon, who bound up their wounds. Then the two were taken out in the prison yard and compelled to stand on a block the remainder of the day

People Expect the Best
