## Social career day slated

What will I do when I graduate? Almost every high school student has asked himself that question. The S-Club and the Soroptimists are trying to help students answer that very question by sponsoring a special career day at Beaverhead County High School Wednesday, Nov. 8.

The program, scheduled from 8:30 a.m. to noon, will bring a number of local business people to the school to help answer questions students may have

about potential careers. Juniors and seniors at the school will sign up for career information that interests them, and at a later time may even visit a business to get hands-on experience. The program will be in the Rec Center at the high school.

## Social Security offers toll-free service

Social Security now has a new toll-free telephone service, according to Paul Vang, Social Security manager in Butte. People who wish to ask a

question, apply for a Social Security card, start a Social Security or Supplemental Security Income claim or make a report can call a single toll-free telephone number.

phone number from anywhere in the United States. The new phone number is 1-800-234-5-USA.

Calls to the new number will be answered at one of several telephone service centers around the country. If they need to be referred to a local Social Security office, they will be referred to their local office, frequently an appointment will be made or the local office will return a call. The service is available 24 hours a day, every day.

As part of the changeover to the new service, existing published Social Security telephone numbers have been disconnected and callers will be referred to the 800 number.
