Thursday, April 2
 4:00 P.M. PEP CLUB—SUB
Friday, April 3
 9:00 P.M. Opening Mixer—SUB

Dear Editor:

In regard to the recent surge of an unchartered organization known as Beatniks, I think it is time that students take notice of these people in their strange physical attire and do something about it or write a new code of ethics for our generation.

I don't think that the majority of Eastern's students should condone these antics.

I'm not condemning this minority group for their so-called interest in the fine arts but does a person have to dress in such a dispickable (sic) manner in order to get the full effect and feeling of the arts?

It was made rather clear a month ago that girls were not permitted to wear slacks or levis neither (sic) on nor (sic) off campus. Therefore lets (sic) eliminate the sockless, rag denim, sweatshirt contingent which has invaded our campus.

Kampus Kutie

A striking brunette who rates a second look from nearly every male on campus is EMCOE's Kampus Kutie, **Barbara Marie Matelich**, 19-year-old sophomore Elementary Education major from Anaconda. Barb says she likes "men and more men!", steak, roquefort dressing, clothing of all kinds, and the great outdoors. On land or sea, she likes to ski, and she also loves to dance.

Pretty Barb Matelich is in many activities which absorbs much of her time at Eastern. She is a member of several organizations, among them S.E.A., Pi Kappa Delta, and Ski Club. She is an avid supporter of Eastern's football and basketball teams. In spite of all these activities, Barbara maintains a good grade average in her studies.

Were You There!!!!?

Last week the Student Legislature received several "gripes" about the lack of number of date dances being held this quarter. To remedy the situation the dorms sponsored a date dance Friday night.

The dorms went to considerable trouble to hire Addison Bragg for the occasion. The stage was all set for a successful dance but, you can guess what happened. Only eighteen couples showed which means only 36 out of a student body of 900 made an appearance.

Where were these people who wanted the date dance? The person who wrote an editorial in a previous EMCOE edition concerning this issue was observed at the Milky Way with his date on Friday night during the dance, where he could have been any other night of the week. Why did he write that article if he didn't plan to attend the dance? Or does he just like to gripe!

Now we ask you, which function proves more successful, a date or a mixer dance? We will let you draw your own conclusions.
