Fort Instructor Demonstrates Hand-to-Hand Combat

Mr. Dermot O'Neill, civilian instructor in hand-to-hand combat, fought a rough-and-tumble fight at Fort William Henry Harrison, gave a demonstration of his work in a special show in the Carroll Auditorium on Monday evening, March 22. With Coach Ed Shanahan as his prey, Mr. O'Neill showed the assembled students and faculty many little tricks which would undoubtedly give an adversary out of commission.

Father Malebeuf, chaplain at the Fort, introduced Mr. O'Neill. O'Neill expressed his regrets that he would be unable to give as an elaborate demonstration as planned, due to the sudden indisposition of his regular sparring partner, but promised to give as good a show as he could with the material at hand.

Born in Ireland, O'Neill spent three years in Hong Kong as a police officer. Next he moved to Japan, where he spent five years. His last posting, before his return to the United States, was to Pearl Harbor, where he stayed for about one year, just four days before the Japanese attack.

His demonstration was received so enthusiastically that Mr. O'Neill promised to give a return performance in the near future.

Tuberculosis Tests

Mrs. Henrietta Crockett, executive secretary of the Montana Tuberculosis Association, and Miss Mary Whaley, county nurse, administered to Carroll students, faculty and Naval Cadets the tuberculosis patch test, on last Monday, March 22. This test is given to determine whether or not the individual is susceptible to the tuberculine bacilli, and if he is, an X-ray will be taken, to find out whether the germs are actually present in the lungs.

Thesis Presentation

On April 1, 1943, each member of the class of '43 will submit in his major field a thesis, as partial fulfillment of the credit for the bachelor's degree. Six members of the class will present their theses.

Those presenting theses and their topics are as follows:

B.J. Sullivan Granted Fordham Fellowship

Bernard J. Sullivan, prominent Butte senior, has been awarded a Fellowship in Biology to Fordham University, New York. This announcement came just recently from the Reverend Gustav Dumas, R.J., President of Carroll College of Fordham. It is expected that he will report for entrance on or about the first of May.

Basketball Manager

Most of B. J.'s time in his four years at Carroll has been spent in the locker room. Here in the capacity of Athlete Manager, he has labored indoctrinately keeping things in order, training the team, shopping and performing the various duties associated with that position.

Final exams are scheduled for April 2.

Army-Navy Aptitude Exams Scheduled

April 2

Dr. Ernest J. Rilley, Carroll president, announced the expansion of the April 2 nationwide testing of high school graduates and present seniors and college students to include applicants for the new Army special training program as well as those for the Navy Basic College Training Program.

Men must be 17, but under 22 on July 1, 1943, and have completed high school, or now be in attendance at an accredited college or university to be eligible for either program under the new examination procedure.

Men selected for the Navy training, after passing the examinations and meeting the approval of an interviewing board, will be set to selected colleges throughout the United States, as apprentice seamen, and in Navy uniforms, on or about July 1, 1943.

Men selected for the Army program will first finish the three months of Army basic training before being sent to an Army special training unit as an enlisted man on active duty, receiving the pay of a private seventh grade.

April Calendar

April 1—Presentation of Senior Theses
April 5—Navy Y-12 Examinations
April 8—Movies
April 15—Oratory Contest Finals
April 17—Campus Day, Movies
April 21—Easter Recess Begins
April 27—Classes Resume
April 30—Prospectus VIII
