

Mast manor

I promised last week that I would talk to the clothesline, but unfortunately it was unavailable to interview. So we will take a look at Mast's new addition to the family, that's right, his bouncing blue buzzsaw. It weighs 1 ton and three ounces. Its probably the quietest thing at the house, but the buzzsaw (call it Howard!) has a long life of labor ahead of it, because of Don Mast's mad obsession to cut wood. Then think of the winter, when he is in his strange, but warm house that is burning the wood that Howard so generously cut and Howard is out in the cold. Well he (Mr. Mast should be turned in to the ACB- The Association to the Cruelty of Buzzsaws).

That doesn't even compare to the torture of what his dog goes through. His master sends him off to places around town (mostly across the street) to take assorted things from the yard. Then when he is finished, he ties his dog on the clothesline, so that it savagely pulls the lines out of shape, thus, torturing another thing on the property of MAST MANOR.

Trivia

The world's tallest-hotel, measured from the street level of its main entrance to the top is the 23 foot tall 10 story peachtree plaza hotel in Atlanta, Georgia, which opened in January, 1976. The \$50,000,000, 1,100-room hotel was designed by architect John Portman is operated by Western-International Hotels, and owned by Portman Properties.

The most yawns on record were scored by a 15-year-old girl patient in a hospital in 1888, who

yawned continuously for five weeks. Nothing else is known about the case, neither name nor place, nor why she yawned or how she was stopped.

The worst sneezing fit lasted for 155 days (from January 11 to June 8, 1966) before it could be stopped by an electric treatment. The sufferer was 17 year-old June Clark of Miami, Florida, who was cured at Jackson Memorial Hospital, Miami.

An I.Q. of 150 represents genius level. A figure of 210 was set by Kim Ung-Yung of Seoul, South Korea. At the age of 4 years 8 months he performed on television in Tokyo and did integral calculus, recited poetry he composed and spoke four languages Korean, English German and Japanese. Both of his parents are university professors and strangely enough, they were both born at exactly the same time, that is, 11 a.m. on May 24, 1934.

The heaviest normal baby ever born weighed 24 pounds 4 ounces. It was a boy born on June 3, 1961, to Mrs. Saadet Cor of Cegham, Southern Turkey.

The stoutest baby ever was probably James Weir of Scotland who weighed 112 pounds at 13 months. He measured 39 inches around the waist and 40 inches from head to toe. He died when 2 years old in 1821.

POLLS

Recently we went around and asked the students their favorite foods and cars, the results are listed below.

FOOD

1. Pizza
2. Steak
3. Shrimp
4. Hamburger
5. Chicken
6. Taco
7. Crab
8. Turkey
9. Lasagne
10. Salad

CARS

1. Ferrari
2. Trans Am
3. Corvette
4. Firebird
5. Z-28
6. Camero
7. Porsche
8. Mustang
9. Mercedes
10. Delorean

wee wonder

Why Tammie's favorite drink all of a sudden is orange juice?

How many times the Sophmores will start all over in English?

How come the school and this town are so boring?

If the boys will do better in B.B. than the girls did?

Why the girls like P.E. so much?

If Tammie will go to the doctor for that bad neck disease she has?

If Anita likes Kraig, Dean, or Mean Mike better? (Probably Mike because he's more physical in volleyball!!!)

Why Barb, Chrissy, and Kevin want to go to Denton?

If winter will only last for a month?

If Browser will be able to dunk it by the first game?

If Barb and Kevin are chasing the wrong boys?

How high Bonnie and Nina's phone bill will be?
