X-MAS JOKES

Lately in school, many conflicts have come up over the school lunches.

People have been saying that the students have been wasting food while the students are saying that the meals are getting worse.

We realize that most of the food we get is from government funds and the cooks have to do with what they get. We also realize that it is hard to cook for many people a meal that everyone will like. There's always going to be a meal that someone doesn't like.

To avoid some conflict, there was a poll done recently on the school lunches. Their favorite five meals in order were hamburgers, taco salad, pizza, taco burgers, and hot dogs and chicken patties with a tie.

The kids also noted on the poll that macaroni and cheese and spaghetti were the worst meals.

When they were asked to give some new ideas many said newsauces for meals, and not to use so much celery in all of the meals.

When asked how they could make the worst meal better they said to have more cheese in it and don't make it so runny.

Almost all of the kids noted that they would like to see a salad bar or a chef salad with chunks of ham, boiled eggs, etc. in it.

I feel that now that the cooks know what the kids like best and what they dislike, they can make more of it or less of it. This way I feel there will be less food wasted and less conflicts.

SCHOOL PROGRAM

The Winifred high school and Grade school Christmas program was held Wednesday the 15th.

The High School band played many Christmas carols including two more songs titled O Holy Night and Jazz Gloria.

The high school choir sang Jazz Gloria, Ring Christmas bells, Christmas Roundelay, and what child is this.

The grade school also played many songs on their horns while many played their tonnettes.

The kindergarten thru sixth grade put on a play called the Super Gift From Heaven.

The program ended with the audience joining everyone to sing many Christmas carols.

We also had a visit from Santa Claus at the end of the program.
