EDITORIAL

Now that spring is here, and summer is on its way, the school year is about over.

For some, it will be here again next fall, but for the Seniors it is over.

I suppose they can't wait for May 13 when they hear that graduation march when their walking into the gym for the last time.

For some, it will be a sad time, but for most it will be a happy moment.

But what is this moment actually. Does it mean their glad because there is no more homework or school, or is it a scary time because you are now taking your first step into the adult world.

This is one of the most important times in your life because what you do with your life right now has an awful lot of influence on how your life will be in ten or twenty years.

Most people don't realize it, but there are many opportunities out in the world just waiting for you to find them.

You don't get any younger and you can never go back in time, so you've got to take control of your life now and take advantage of all the opportunities in the world.

If a person is to succeed, you must take every opportunity that comes your way. You must overcome any obstacle that gets in your way.

As I close, I would like to extend many wishes and good luck to this year's seniors who are preparing to go out in the world on their own. To make their life, and to form their career.

There are going to be many mountains, but if you can't climb it, do not turn back yet find a path around it. Whatever the struggle, continue to climb, for the summit may only be one step away. CONGRATULATIONS AND GOOD LUCK SENIORS!!!
