In preparing their new edition of Webster's Dictionary the publishers of the Werner Company this year have published a work of reference that can be compared not only with the best publications of the kind, but also in having published a lexicon that contains all the latest features and many new words that are not found in other works of this nature. A dictionary is one of those books that is considered a necessary part of every well-established household, and we heartily endorse the new edition and commend it to our readers. An advertisement in another part of this issue gives full information as to how to secure the work.

A Race For Land.

There was a lively race for land Sunday night, says the Dillon Times. The starting point was the Big Hole basin and the finish was in the clerk of court's office in Dillon. There were two contestants, Beard Hove and Russell Wimple, and the finish was a tie. The contest was in the nature of a race for land, and the winner was to be the one who could get the most land in the shortest time. The race was a very interesting one, and the spectators were very much interested in the result. The race was a very close one, and the spectators were very much interested in the result.
