**Do It Now**

This is the season for planting seed, and 'tis also the printer's time of need. Sow radish seed, and lettuce too, and pay the printer what'er is due. Go build yourself an onion bed and remember the printer must be fed. Sow several rows of early peas and pay for last year's paper, please. Dig up the earth 'round the strawberry vine and if you want THE BREEZES drop us a line. Plant some potatoes to put in the hash and remember the printer needs some cash. Fix up a hill or so of beans and with the editor share your means. Of water-melons you'll need a patch—the editor's pants need one to match. Pay up your subscription, then plant your corn and you'll raise a big crop as sure as you're born.

Recent investigations show that it costs the government \$3,200 to bury a dead congressman. Some of our exchanges are inclined to complain of this extravagant outlay; but it is a fact that there are several that the people would gladly see buried, even at that cost.

**PARCEL POST**

**HOW OFTEN IS IT** that you think of some article of wearing apparel that you need and you fail to send for it because you must wait so long before it arrives?
