#### WOMEN WISH CRIME NEWS BARRED

A two weeks' moratorium on crime and scandal news throughout the United States is envisaged, if resolutions adopted by the mid-biennial council of the General Federation of Women's Clubs are carried out successfully.

By their votes, the club women have agreed to ask their home newspapers to make a test of clean journalism. They have added point to their decision by pledging their support to those newspapers which agree to the experiment. The resolutions follow:

Whereas, A number of newspapers in this country, in compliance with the General Federation of Women's Clubs, request "to give less space and prominence to crime news, divorce proceedings and murder trials," are endeavoring to test the public desires in this case by omitting any crime or divorce proceedings for a period of two weeks, and

Whereas, Such an experiment will give the public an opportunity to see how salable a paper can be made without such news, therefore be it,

Resolved, that each club in the General Federation of Women's Clubs upon the return home of its members, suggest to its home paper that such a "no crime or scandal news" period of two weeks be attempted by its own paper.

Resolved further, That the press department of each State federation, in co-operation with all of the State Federation members, take steps to give publicity to the "no crime" toast and to express its approval of such a course that is the first step toward a cleaner journalism advocated by the national press department and approved by the General Federation at the Los Angeles Biennial.

#### HAVE YOU AN EXHIBIT?

The Baker Commercial Club has appointed a committee to gather exhibits to send to the Midland Empire Fair at Billings, which will be held September 15th to 18 inclusive. We are anxious to show at this fair the very best we have in the county. If you have any kind of grain or grass which you believe worth while, why not gather a bundle and bring to the County Agent's office? It will be prepared free of charge and placed with other samples and sent as a Fallon County Exhibit to the Billings Fair.

If you have some good grain, go into your field and cut samples close to the ground, getting long stems, and bring the best heads to the County Agent's office and we will have it prepared into sheafs. It is hard for us to get over the county to find the best samples, but with everyone's co-

#### Legion Is Making Notable Progress In Child Welfare

By Mark T. McKee

Chairman, The National Children's Welfare Committee, The American Legion.

DETROIT, Mich. —After two years of study, during which the groundwork for The American Legion's efforts in child welfare was carefully laid and a splendid program of child care evolved in consultation with the country's leading experts in that field, much progress is being made this year in the practical application of that program.

A board of nine directors has been appointed, three each by the heads of the Legion, The American Legion Auxiliary and Forty and Eight, to have executive direction of our work for orphaned and dependent children of veterans of the World War. A child welfare division has been established at national headquarters at Indianapolis. An expert field service is being set up to carry on the actual work of contracting cases, making surveys, conducting investigations, placing children in homes for adoption, making detailed plans for caring for them, in a word, solving the home problems of dependent and orphaned children of veterans.

Home aid is being given, wherever it is possible to solve the problem in that way so that the surviving parent may maintain the home and keep the family together in its natural environment. This aid takes whatever form may be necessary and effective. Particularly valuable help is being given in this phase of the child welfare work by the women of the American Legion Auxiliary, who go into the home, learn with a woman's sure instinct what is needed and administer to that need with a woman's unflinching tact and tender sympathy. Where the natural home cannot be maintained, arrangements are made to place the children in good foster homes. We make a careful investigation to determine that the home is nicely adapted to the needs of the child to be placed in it. The child is kept under supervision for six months. Then, if everything is satisfactory, it is adopted.

#### BRIEF ITEMS OF SCOUT NEWS

Sixteen Evanston, Ill. scouts recently planted at Camp Wabanningo 20,000 white pine, jack pine and Norway spruce. They planted forty white birch trees in a circle a few miles from camp and called it the "Roosevelt Circle," after Col. Theodore Roosevelt, Jr., who has promised to bring them some rare trees from Thibet to plant in honor of his father.

At the request of the U. S. Bureau of Public Roads, scouts in many parts of the country have been assisting in making an accurate count of traffic. It is estimated that the service rendered by scouts in Ohio alone saved the government \$75,000 in making this check. Six hundred Boy Scouts volunteered for this service in Washington, D. C. At Greenville, S. C., the time given by scouts was equal to eighteen ten-hour days.

### THREE REAL CHAMPIONS

(Copyright by R. R. Doubleday.)

"Expert and daring" leaders in the great sport to which they have brought fame, are the cowgirls from the western ranges who will compete in the Chicago Roundup and World's Championship Rodeo, to be held for nine days beginning August 15. Champions past and present, as well as new seekers after fame, will add thrills to the cowboy contests which will be presented in the new \$5,000,000 stadium under the auspices of the Chicago Association of Commerce. A group of these cowgirls started the staid Britisher when they appeared in the International Championship held by Tex Austin at Wembley, England, recently, and the same champions will compete in the Chicago spectacle. Austin is organizing the Chicago roundup and will manage it, and the \$30,000 in prizes is the largest amount offered for any contest this year.
