Accident At Collins.

Tom Cullerton was probably fatally hurt and Jack Dunbar was seriously injured this morning while working on a bridge across the Teton river at Collins. The heavy hoisting engine, used in the bridge construction, crushed through the structure, tearing down much of the bridge and imprisoning the men under the timbers.

Cullerton was the engineer in charge of the hoisting engine and Dunbar was employed tending the niggerheads. The men were part of the crew at work on the construction of the new bridge over the Teton to be used by the Great Falls & Canada road. At the point where they were working the bridge was about forty-five feet high.

The hoisting engine was resting on the false work, being moved forward as the timbers were put into place. The engine was being used to lift a lot of heavy timbers when it supports gave way and engine, timbers and men went down in a heap.

The other men quickly extricated the two injured men from the wreck and gave them such attention as was possible until the arrival of a physician. Dr. Fairfield was summoned from this city and left on an engine for the scene.

At the hour when the southbound train left Collins this afternoon Cullerton was still unconscious. He is said to have received severe internal injuries and both his legs are fractured. He has a brother employed as conductor on the Spokane Falls & Northern road. The brother has been notified at Spokane. His injuries are thought to be fatal.

Dunbar is able to talk, but it is thought he is badly hurt as he has no feeling in his lower limbs. One of his legs is fractured near the ankle so that the bones protrude through the skin.

The men were taken to Havre where they will be placed on the west bound train to be taken to the railroad hospital at Kalispell.—Great Falls Leader.

STRAYED.

One black mare with white spot in forehead; weight about 1200 pounds and branded TT on right thigh. A reward of \$10.00 will be paid for return to EXTRAID Bros., Pondera, Mont.

He Learned a Great Truth.

It is said of John Wesley that he once said to Mistress Wesley: "Why do you tell that child the same thing over and over again?" "John Wesley, because once telling is not enough." It is for this same reason that you are told again and again that Chamberlain's Cough Remedy cures colds and grip; that it counteracts any tendency of these diseases to result in pneumonia, and that it is pleasant to take.
