# THE SILO

The biggest and best thing on the farm today; buy one and see what the cows will do for you when you feed them silage. We have watched them ever since they were brought into general use in other communities and know they are feed stretchers, and what's more we have the right kind of stock right here in our yard to build the best and cheapest silo now going. These silos have stood the test in cold countries like Dakota and Minnesota. We have two sets of blue prints and specifications at our yard. They won't cost you a cent, come in and look them over, and let us explain our silo to you.
