The Lange Construction Co., of this city and Great Falls, have the contract for the alterations to be made in the T. A. Smith business house on Main street. The building is to be of concrete and will have another story added, the front to be of brick. They expect to begin work at once.

A son was born to Mr. and Mrs. Richard Scott, at their home at Nemaha, Neb., on Friday, May 22nd.

Word has been received by friends in Choteau that Richard Scott, formerly manager of the local telephone office, had been seriously injured in an auto accident at his home in Nebraska. It was first reported that his back was broken, but fortunately this proved to be untrue. His back was badly wrenched, however, but he is now able to be up and around again.

The Teton county crew of road surveyors, who have been at work in the vicinity of Valier, and who were the innocent cause of the item in the Valerian a couple of weeks ago concerning the work of Soo surveyors in that neighborhood, have returned to this city. Too bad to spoil a new railroad for you, Mr. Kelly, but you should take a half day off sometime, when you are not too busy, and get acquainted with the home folks. Every surveyor in the world is not working for the Soo.

Earnest Lamka, one of the clerks in the forestry office in this city, quietly left town last week, saying that he was going to Great Falls for a short visit. Arriving at that city he sent word back to his friends that he was on his way to Washington, where he expected to be married on June 3rd to Miss Florence Libby at Kelso, Wash.

A special meeting of the Masonic lodge of this city was held last Saturday evening at the Woodman hall. The meeting had been called for the purpose of welcoming the grand master but at the last moment it was learned that he was unable to be present, but he was ably represented by J. G. Bair, of this city, who is a past grand master. About 80 Masons were in attendance, including a number from Conrad, Valier, Cut Bank and other places. A luncheon was served at midnight, consisting of strawberries, ice cream, cake, chicken sandwiches and coffee.

THE SILO

The biggest and best thing on the farm today; buy one and see what the cows will do for you when you feed them silage. We have watched them ever since they were brought into general use in other communities and know they are feed stretchers, and what's more we have the right kind of stock right here in our yard to build the best and cheapest silo now going. These silos have stood the test in cold countries like Dakota and Minnesota. We have two sets of blue prints and specifications at our yard. They won't cost you a cent, come in and look them over, and let us explain our silo to you.
