

JENNY-LIND AND PAYNE.

How the Singer Paid a Tribute to the Author of Home Sweet Home.

[New England Magazine.]

No American poet ever received a more enviable compliment than one paid to John Howard Payne by Jenny Lind on his last visit to his native land. It was in the great National hall in the city of Washington, where the most distinguished audience that had ever been seen in the capital of the republic was assembled. The matchless singer entranced the vast throng with her most exquisite melodies. "Casta Diva," the "Flute Song," the "Bird Song," and the "Greeting to America."

But the great feature of the occasion seemed to be an act of inspiration. The singer suddenly turned her face toward that part of the auditorium where John Howard Payne was sitting, and sang "Home Sweet Home" with such pathos and power that a whirlwind of excitement and enthusiasm swept through the vast audience. Webster himself lost all self control, and one might readily imagine that Payne thrilled with rapture at this unexpected and magnificent rendition of his own immortal lyric.

THE WORST RESULT YET

Terrible Death in Panama From Contact With a Live Wire.

A naked telephone wire was detached by some street arabs Saturday so that it hung from a support trailing over a certain wire from an electric light plant, says a Panama special. A police officer commenced to haul it in. The act of drawing caused it to cut through the rubber insulator of the electric light wire. The officer received a shock which rendered him unconscious. A great crowd gathered and before the electric light company could be notified to shut off the current, a horse hitched to a car was driven over the wire and killed. The cabman in attempting to extricate his horse from the harness, thinking he had simply fallen, was struck on the forehead by the swinging wire, which bit through the skull almost to the ears and there remained. The electric fluid literally filled the man's head and in a moment his brain and eyes had been completely incinerated. The flesh and skin smoked and sizzled until they were also reduced almost to ashes. All this time sparks played about the man's head in an awful shower.

Brazilian Coffee.

Advices from Brazil by the bureau of the American Republics show that the amount of coffee received at the port of Rio de Janeiro for two months of the present fiscal year was 842,054 bags.

The total shipments during the same period were 742,456 bags, of which 496,000 bags went to the United States. During the same period there was received at Santos 323,931 bags.

Masonic Temple Finished.

With an appropriate ceremony and display the cornerstone of the Chicago masonic temple was laid on the 6th inst. The building now towers to its full height of nineteen stories, 278 feet from ground to coping. It is the highest structure of its kind in the world. The interior finishing will now be pushed.

Colonel Shelby Eli Dillard, editor of that famous paper, the Red

Lodge Picket, was in town on business connected with the sale of his paper to the republicans of his town. Some one was coming in there to start an opposition democratic sheet, and so Mr. Dillard decided to retire. He says the Picket will be used in the interest of Col. W. F. Meyer, who will run for Congress next year, and Mr. Dillard believes the Colonel can beat the field.--Journal.

Military Report.

Col Wilson, Superintendent of the United States Military Academy, in his annual report, expresses himself favorable to a moderate increase in the corps of cadets by restoring to the president the privilege of appointing ten cadets at large each year. The condition of the corps during the past year was very gratifying.

40 years the standard.

A Pure Cream Tartar Powder

ROYAL, Contains Ammonia.

TAYLOR'S ONE SPOON. Contains Alum and Ammonia.

Dr. Price gives larger and fuller cans than those of any other Baking Powder manufacturer.

Above cut represents the comparative size of one pound can each "Dr. Price's," Royal" and "Taylor's One Spoon." These cans were set side by side, then photographed down in exact proportions to admit the plate in this space. Ask your grocer to set a one pound can of any other brand alongside 1 lb. Dr. Price's Cream Baking Powder, and observe the difference, as illustrated above.

Adulterated powders may usually be detected by their heavier bulk, as shown by the small cans, and these scantily filled, often containing a circular to help fill out the cans. It is a singular fact that many of the ammonia and alum baking powders are advertised as "Absolutely Pure," All official examinations prove that it would be safe to reject all powders labeled absolutely pure.

The economy in using Dr. Price's Cream Baking Powder does not consist alone in the fact that much larger and fuller cans are given, but Dr. Price's is a stronger, purer and more wholesome baking powder than any other known. Does better work, and goes farther, hence more economical in every way.

What woman would use an ammonia or alum baking powder if she knew it? Such powders not only undermine the health, but ammonia gives to the complexion a sallow and blotched appearance.

Dr. Price's Cream Baking Powder is reported by all authorities as free from ammonia, alum, lime, or any other adulterant. The purity of this ideal powder has never been questioned.

Refuse all Substitutes, they may Conceal Ammonia or Alum.

NO. 3525.

First National Bank OF GREAT FALLS.

OFFICERS:

- T. E. COLLINS - President.
- J. T. ARMINGTON - Vice-Pres.
- A. E. DICKERMAN - Cashier
