### **Republicans Chose Capable Leaders** For '63 Legislature

(Montana Standard Editorial) Montana GOP legislators reached into a Republican party stronghold for their leadership in the 1963 session.

They did exceptionally well in electing Rep. Frank W. Hazelbaker of Dillon as Speaker of the House and Sen. J. S. Brenner, Beaverhead County stockman, as Minority Leader in the Senate. They have, in Hazelbaker and Brenner, capable men.

Beaverhead County Republicans have contributed distinguished Year Ago Today It leadership to the party and the legislature over many years. Nevertheless they must be highly pleased with this new recognition.

In naming Hazelbaker a pioneer Republican family receives recognition; also Frank W. is the third member of one family to serve in Montana in three generations. His father, Frank H., and a grandfather, George Woodworth, served their party in Helena, his father being particularly active and prominent.

Sen. Brenner is a past president of the Montana Stock Growers Association and has creditable service in both the Senate and the

men looked for strong leaders who would best serve their party and the state not just in 1963 but in other years ahead. Hazelbaker is recognized as a hard, consistent, conscientious worker, not only on the legislative front but in community activities.

Brenner's efforts reflect a solid understanding of Montana's problems, especially financial.

These able, conservative legislative leaders, we can expect, will serve Montana well in the coming Helena deliberations and decisions.
