

\$10,944 in State Funds Slated for County Schools

HELENA — Superintendent of Public Instruction Harriet Miller announced that State Classroom Unit Assistance funds to be distributed to schools next week under a temporary law enacted by the 1961 Legislature will amount to \$125.80 per classroom unit.

A classroom unit, she explained, is based on a regular, full-time qualified teacher. Under the law, one-teacher rural schools will receive \$125.80 each. The largest school systems, which are in Billings and Great Falls, will receive approximately \$70,000 each.

Miss Miller explained that three counties — Wibaux, Fallon and Rosebud—will receive no classroom unit assistance at all, because of legal provisions denying classroom unit assistance to districts not receiving state school equalization money, another form of state aid.

Of the \$855,671.64 to be distributed, one-half will go to the ten most populous counties and the other half to 43 counties, Miss Miller said.

Under the program, Beaverhead County schools will receive \$10,944.43.
